## “Success Through Powerful Partnerships” Contractor Showcase Exhibitors

AECOM is built to deliver a better world. We design, build, finance and operate infrastructure assets for governments, businesses and organizations in more than 150 countries. As a fully integrated firm, we connect knowledge and experience across our global network of experts to help clients solve their most complex challenges. From high-performance buildings and infrastructure, to resilient communities and environments, to stable and secure nations, our work is transformative, differentiated and vital. A Fortune 500 firm, AECOM had revenue of approximately \$18 billion during fiscal year 2015. See how we deliver what others can only imagine at [aecom.com](http://aecom.com) and @AECOM. **Contacts: Louis Marroquin - Director, Multiple Projects Group & PNW Operations; Anne Runnalls - Project Manager/BPCP Program Manager; and Carl Reeb, PE - Civil/structural Engineer and BPCP Site Lead**

Refining & Petrochem Services

Barnhart Crane and Rigging specializes in the lifting, heavy-rigging, and heavy transport of major components used in American industry. We are committed to continuous improvement and to be the best heavy lift and heavy transport company. Customers can expect us to aggressively pursue innovative ways to lower overall project costs and improve safety. With a national network of over 40 facilities, we provide world-class refining services through a local presence, including locations in Oregon and Washington State. Operated crane rental, rigging services, outage planning, specialized solutions for component replacement, industrial storage and national project cargo logistics all combine to ensure our customers receive the lowest total project cost. **Contacts: Olof Anderson – Operations Mgr, Terry Tarpley – Strategic Accounts Mgr, Dave Ryan – Account Representative BP, Jason Dhanens – Project Sales, Clint Hansen – Account Representative Shell, John Ernst – Supt**

Bigge Crane and Rigging has been one of America’s premier global crane sales, crane rental, and project services companies. Their innovative specialized project teams provide heavy lift, heavy rigging, specialized transportation equipment, and innovative engineering solutions for some of the most challenging projects across the US. Bigge currently owns and maintains the largest inventory of new and used cranes for sale in the country. **Contacts: Meghan Murphy - Business Development Manager; John Palmer - Branch Manager**

More Than Just A Rental Store

Birch Equipment rents, sells and repairs construction equipment and supplies to amazing projects and cool locals. Birch is ranked in top 100 largest equipment rental and sales companies in the United States. We serve commercial contractors, manufacturing, industrial, government, emergency services, military and home improvement. **Contacts: Sarah Rothenbuhler - Owner/CEO, Jordan Mellich - Fleet Coordinator, Stephen Mitchell - Industrial Division Manager, Jason Sharp - Everett Facility Manager, Tanya Prentice - Anacortes Facility Manager, Cara Buckingham - Information Director**

Dunkin & Bush is a service-oriented company offering a full range of industrial coating and lining applications, scaffolding, insulation, lead abatement and fireproofing. We are a certified “Woman Owned Business” in operation since 1943, and have worked in every major industrial environment, including petrochemical, pulp and paper, food processing, electronics, manufacturing, and power generation, as well as on numerous bridges, stadiums, and other structures. **Contacts: Deidre Dunkin - CEO, Deanne Donovan - CFO, Shawn Harju - Chief Legal Officer, Martin Horgan - VP Operations, Rex Bison - Corporate Safety & Risk Mgr, John Van Miert - Regional Mgr, Mark Rondeau - Mgr of Business Development, Levi Mather - Mgr Multi-Craft Services, Kim Shoemake - Staffing Manager**

Granite Construction is a builder of roads, tunnels, bridges, airports and other infrastructure, and also produces sand, gravel, ready-mix and asphalt concrete and other construction materials. From the largest, most complex infrastructure projects to the smallest construction jobs, from transportation to power to water projects, we are putting our commitment to collaboration to work. We strive to provide our customers with the highest standards of quality, safety and service. **Contacts: Andrew Thompson, Kyle Smith, Luke Bentley**

Greenberry Industrial is a general industrial contractor and fabricator with more than 40 years of experience working on highly specialized, multi-faceted industrial projects throughout the U.S. Our dedication to safety and quality yields work that exceeds client expectations with each and every project. From fabricating a major process vessel to small structural elements, Greenberry delivers high-quality projects on time and on budget. **Contacts: Chris Murray, Sr Project Executive, Troy Goodreau, Regional Manager, Chris Thudium, VP, Construction & Maintenance, Greg Toy, VP, Business Development, Vince Piscitello, Director Business Development & Fab Division**

Haskell Corporation is a heavy industrial, general contractor and fabricator. We perform a wide variety of EPC, Design-Build, Construction Management as well as field and shop fabrication construction services to clients in power, pulp and paper, renewable energy, manufacturing & processing, ASME assemblies and structural steel fabrication. We are well known for our ability to perform on very short notice, to perform effectively in very remote and difficult environments and to efficiently manage projects that require a high level of logistical expertise. **Contacts: Terry Corrigan – Vice President, Ray Pierce – Safety Director, Michael Daughters – Chief Estimator**

JH Kelly is a fourth generation, family-owned construction firm that provides mechanical services to commercial facility owners while also acting as a self-performing industrial general contractor at process plants throughout Washington, Oregon, Idaho and Montana. We have grown alongside the industrial and commercial markets and we've invested heavily in piping and electrical fabrication facilities, giving our company the edge in this dynamic, competitive marketplace. **Contacts: Rob Harris, Pete Romero, Rick Stump**

Matrix Services is a full-service provider of construction, repair and maintenance services to industrial and energy clients in the U.S. and Canada. Since our start in 1984 as a petroleum tank provider, we've had a rich history of success and repeat business. Over the years we have steadily developed our competencies to become a full-service provider that adds value to every customer relationship. With us, you get one-stop access to the skills of specialized contractors across many disciplines – the right team and the right capabilities for your unique project requirements. **Contacts: Gene Carter - Director, Business Development Construction, Jason Neiser - Director, Business Development TAPS, Tom Niles - Director, Business Development Specialty Cleaning**

Olsson Industrial Electric is a professional provider of all phases of electrical engineering, installation and instrumentation. Since 1986 Olsson has grown steadily on a foundation of design capability, superior craftsmanship and reliable execution of complex projects. We partner with our customers to assure that every job has a safe and successful outcome. Our ability to manage turnkey projects that include detailed design and complex electrical installations is well known as is our experience with integrated systems and controls. Our goal is to make your project a success and to earn your confidence for future business.

**Contacts: Erik Olsson, Jon Tuck**

Performance Contracting, Inc. (PCI) is one of the leading specialty contractors in the United States. We offer quality services and products to the industrial, commercial and non-residential markets. PCI is the parent company of Performance Contracting, Inc (PCI). PCI is our largest subsidiary and has two main divisions - Interior Services, and Insulation & Specialty Services. We provide our customers with diverse but related services, making PCI a true "single-source" contractor.

**Contacts: Phil Berns – Operations Manager, Jason Bailey - Sr. Estimator, Steve Grillo - Business Development Manager**

Petrochem Insulation's core services include insulation, scaffolding, metal structures, and painting & coatings. We also provide asbestos abatement, lead abatement, fireproofing, heat tracing, and other associated industrial solutions. We serve industrial and commercial markets nationwide with experienced crews cross-trained in multiple industrial solutions to provide safe, efficient, and cost-effective project completion. **Contacts: Samuel Delgado - Project Manager, Seth Jeretzky - Operations Manager**

UW Center for Construction Research & Education provides three areas of research: 1) Virtual Construction Lab - focuses on research in modeling, simulation, and visualization. It houses a 1,200-sqft HoloSuite and a 120-degree projection screen for virtual and augmented reality applications, centering on human interface technology. 2) Methods & Materials Lab - focuses on productivity, safety, and health studies, with a large bay space where construction systems can be used to work on specified building components or materials using standard or innovative techniques, and an integrated high-speed data acquisition system to capture multiple-feed digital video and instrument signals. 3) Education Lab - investigates different pedagogical approaches related to construction education. It also incorporates a state-of-the-art digital video production facility to create a variety of educational materials.
