“Success With Today’s Workforce” Contractor Showcase Exhibitors

Stronger. Safer. Infrastructure.™

Aegion Energy Services operates locally as Brinderson, a full service engineering, procurement, construction, maintenance and turnaround company serving the western United States and a wholly-owned subsidiary of Aegion Corporation. Concentrating primarily on energy projects in the private sector, Brinderson serves a broad range of industries, including upstream oil and gas production, gas processing, oil refining, terminals and pipelines, chemicals, renewable energy and industrial manufacturing.

AECOM is built to deliver a better world. We design, build, finance and operate infrastructure assets for governments, businesses and organizations in more than 150 countries. As a fully integrated firm, we connect knowledge and experience across our global network of experts to help clients solve their most complex challenges. From high-performance buildings and infrastructure, to resilient communities and environments, to stable and secure nations, our work is transformative, differentiated and vital. A Fortune 500 firm, AECOM had revenue of approximately \$18 billion during fiscal year 2015. See how we deliver what others can only imagine at aecom.com and @AECOM.

Anvil provides full multi-discipline engineering, design, project management, procurement, and construction coordination support services to clients in the U.S. and Canada. For 46 years we've provided successful and quality engineering and project management services to the oil and gas industry. We do our best to deliver the right cost effective solutions to our clients.

Bigge Crane and Rigging has been one of America’s premier global crane sales, crane rental, and project services companies. Their innovative specialized project teams provide heavy lift, heavy rigging, specialized transportation equipment, and innovative engineering solutions for some of the most challenging projects across the US. Bigge currently owns and maintains the largest inventory of new and used cranes for sale in the country.

DUNKIN & BUSH, INC.
Industrial Contractors Since 1943

Dunkin & Bush is a service-oriented company offering a full range of industrial coating and lining applications, scaffolding, insulation, lead abatement and fireproofing. We are a certified “Woman Owned Business” in operation since 1943, and have worked in every major industrial environment, including petrochemical, pulp and paper, food processing, electronics, manufacturing, and power generation, as well as on numerous bridges, stadiums, and other structures.

Granite Construction is a builder of roads, tunnels, bridges, airports and other infrastructure, and also produces sand, gravel, ready-mix and asphalt concrete and other construction materials. From the largest, most complex infrastructure projects to the smallest construction jobs, from transportation to power to water projects, we are putting our commitment to collaboration to work. We strive to provide our customers with the highest standards of quality, safety and service.

GREENBERRY

Greenberry Industrial is a general industrial contractor and fabricator with more than 40 years of experience working on highly specialized, multi-faceted industrial projects throughout the U.S. Our dedication to safety and quality yields work that exceeds client expectations with each and every project. From fabricating a major process vessel to small structural elements, Greenberry delivers high-quality projects on time and on budget.

Haskell Corporation is a heavy industrial, general contractor and fabricator. We perform a wide variety of EPC, Design-Build, Construction Management as well as field and shop fabrication construction services to clients in power, pulp and paper, renewable energy, manufacturing & processing, ASME assemblies and structural steel fabrication. We are well known for our ability to perform on very short notice, to perform effectively in very remote and difficult environments and to efficiently manage projects that require a high level of logistical expertise.

JH Kelly is a fourth generation, family-owned construction firm that provides mechanical services to commercial facility owners while also acting as a self-performing industrial general contractor at process plants throughout Washington, Oregon, Idaho and Montana. We have grown alongside the industrial and commercial markets and we've invested heavily in piping and electrical fabrication facilities, giving our company the edge in this dynamic, competitive marketplace.

Matrix Service is a full-service provider of construction, repair and maintenance services to industrial and energy clients in the U.S. and Canada. Since our start in 1984 as a petroleum tank provider, we've had a rich history of success and repeat business. Over the years we have steadily developed our competencies to become a full-service provider that adds value to every customer relationship. With us, you get one-stop access to the skills of specialized contractors across many disciplines – the right team and the right capabilities for your unique project requirements.

Olsson Industrial Electric is a professional provider of all phases of electrical engineering, installation and instrumentation. Since 1986 Olsson has grown steadily on a foundation of design capability, superior craftsmanship and reliable execution of complex projects. We partner with our customers to assure that every job has a safe and successful outcome. Our ability to manage turnkey projects that include detailed design and complex electrical installations is well known as is our experience with integrated systems and controls. Our goal is to make your project a success and to earn your confidence for future business.

Performance Contracting, Inc. (PCI) is one of the leading specialty contractors in the United States. We offer quality services and products to the industrial, commercial and non-residential markets. PCG is the parent company of Performance Contracting, Inc (PCI). PCI is our largest subsidiary and has two main divisions - Interior Services, and Insulation & Specialty Services. We provide our customers with diverse but related services, making PCI a true "single-source" contractor.

Petrochem Insulation's core services include insulation, scaffolding, metal structures, and painting & coatings. We also provide asbestos abatement, lead abatement, fireproofing, heat tracing, and other associated industrial solutions. We serve industrial and commercial markets nationwide with experienced crews cross-trained in multiple industrial solutions to provide safe, efficient, and cost-effective project completion.

Trailhead Engineering is a complete solutions provider offering project management, engineering, procurement, fabrication, and construction services. Our focus is the Oil and Gas, Petrochemical, and Refining industries where we have extensive experience. Our services are offered in conjunction with fabrication and construction services through partnerships. Trailhead has mastered the ability to align risks and rewards with complimentary service companies to deliver complete solutions to the industry. This strategy is attractive to customers because the problematic interfaces between subcontractors have been eliminated. Additionally, the customer operates with a single point of control for all commercial and technical matters. While Trailhead Engineering provides services on a time and material basis, we are differentiated from others by offering engineering and design on a lump-sum basis.
